

Fabric Estimator Guide

This fabric estimator provides an approximate idea of how much fabric is required for different outfits and accessories. The measurements are based on standard designs and sizes (XS–XL for adults, varying sizes for kids and men). However, actual fabric usage can differ based on style, fit, additional design elements (pleats, gathers, flare, embroidery), and pattern placement. **It is always recommended to cross-check with a tailor or designer before purchasing fabric** to ensure the correct quantity and avoid any shortage or wastage.
